## Sophomores

learning their way around — getting their own wheels — mixing studies and socializing — meeting at the pizza place after school but still burning the midnight oil — gaining poise and confidence — getting to know the school, the people, the vital statistics necessary for survival — (course # 101 is murder!) . . .

This yearbook is a history book of our school. It contains the many events that took place in our lives during 1976-1977. These historical events have now been turned into memories which we all share.

Few people realize how much work goes into the making of a yearbook. Without the time and effort of the people on the staff, and the time and assistance of Mr. Kowalczyk, this yearbook would not have been possible. For making it possible, I would like to thank them very much.

I hope that all the '77 graduates, and the entire student body, find what they are searching for in their lives.
